

Thank you for your patience and understanding as we find ways to work through and support our business partners during the Coronavirus (COVID-19) crisis.

In response to the recently announced stage four restrictions within the Melbourne metropolitan region, Cummins has taken the following steps to protect the health and safety of our customers and employees in accordance with government direction:

- COVID Safe Plans implemented by facility
- Health and temperature screening to continue for all visitors and employees
- Worker Permits have been released to all employees to comply with the Victorian Permitted Worker Scheme
- All employees who can work remotely will continue to do so
- Our Cummins Care team continue to work remotely and are ready to provide you with 24/7 support at 1300 CUMMINS
- We will continue to support customers that are permitted to operate under the Restricted Activity Directions issued by the Victorian Government
- Enabled contact free pick-up of parts orders and safe vehicle drop-off procedures
- We have limited access to our driver facilities to ensure safety

The Metropolitan Melbourne facilities impacted by stage four restrictions are Scoresby, Laverton, Campbellfield and Pakenham.

If you have any questions or concerns relating to how we can safely meet your critical service and support needs please do not hesitate to contact your local representative, branch or business partner. In the meantime, I wish to assure you that Cummins remains committed to serving your business needs whilst taking the necessary steps to ensure the health and safety of our employee's suppliers and communities.

Thank you,

Dan Gallagher
Area Director
Cummins South Pacific Pty Ltd
